Making Sense of your 2015-16 School Report Card

Denise Michaelsen, CESA #11 October 4, 2016

Good Morning! Everyone is muted, we will begin at 9:30!

WI Report Cards Overview

Mary Ann Hudziak WISExplore Team, Teaching & Learning Coordinator -CESA 6 mhudziak@cesa6.org

Live Webinar - October 18, 2016

November BOE Informational Session

- 1. Purpose of WI State Assessment System
 - a. <u>http://dpi.wi.gov/strategic-assessment/strategic-assessment-system-explained</u>
- 2. Review key changes to school and district report cards and the impact of those changes
- Share resources and strategies for communicating Report Card results with stakeholders

Purpose

- The report cards were designed with a two-fold purpose:
 - Reporting data on how our schools are doing overall
 - Providing information to schools on specific areas to improve
- Used in combination with local district and school data, the report cards provide a foundation for school improvement planning and evaluation.

A New Balance in WI

Strategic Assessment Systems measure progress towards college and career readiness, including academic preparedness and social-emotional competence, across classrooms, schools, districts, and the state.

Strategic Assessment **System** Summative

http://dpi.wi.gov/strategic-assessment

District - School - Virtual - Choice - Private

District

*Treated as one big school

*Most include attendance AND graduation rate School

*Includes attendance OR graduation rate in On-Track area Virtual

*If a virtual school has >50% open enrolled students, NOT included in district report card

Choice

*Information on those students in a private school who fall under the voucher program

*Need two years of data to produce complete report cards

Private

*Information on all students in a private school that participate in the voucher program

*Opt In

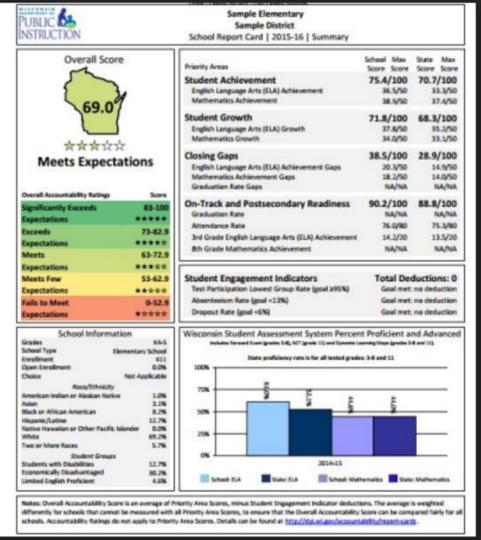

*Need two years of data

*Start next year

Mathematics Achievement Gaps	18.2/50	14.0/50
Graduation Rate Gaps	NA/NA	NA/NA
On-Track and Postsecondary Readiness	90.2/100	88.8/100
Graduation Rate	NA/NA	NA/NA
Attendance Rate	76.0/80	75.3/80
3rd Grade English Language Arts (ELA) Achievement	14.2/20	13.5/20
8th Grade Mathematics Achievement	NA/NA	NA/NA

2015-16 Report Cards

- Overall three major changes to discuss:
 - 1. Value-added used for Student Growth
 - 2. Variable weighting based on poverty levels (achievement and growth)
 - 3. Choice Report Cards issued but not rated

Change 1: Value-Added Growth Measure

- Required change: use a value-added methodology
 - Calculates expected growth for a student population (taking into account demographics) and looks at the difference between expected and actual growth.
- Growth model produced by the Value-Added Research Center at UW-Madison
 - Oak Tree Analogy (by VARC)
- Expected impact: Increased complexity
 - Value-added Brief
 - Value-Added Technical Manual

Change 2: Variable Weighting for Poverty

Weighting Change from Prior Years: Achievement and Growth

Prior Report Cards				
25%	Student Achievement			
25%	Student Growth			
25%	Closing Gaps			
25%	On Track			

* 2015-2016 Report Cards			
500/	Student Achievement		
50%	Student Growth		
25%	Closing Gaps		
25%	On Track		

Simple Version

Typical Elementary School		Typical Middle School		Typical High School		Typical District	
50%	Student Achievement	E0%	Student Achievement	40%	Student Achievement	50%	Student Achievement
50%	Student Growth	50%	Student Growth		Student Growth		Student Growth
25%	Closing Gaps	25%	Closing Gaps	40%	Closing Gaps	25%	Closing Gaps
25%	On Track	25%	On Track	20%	On Track*	25%	On Track

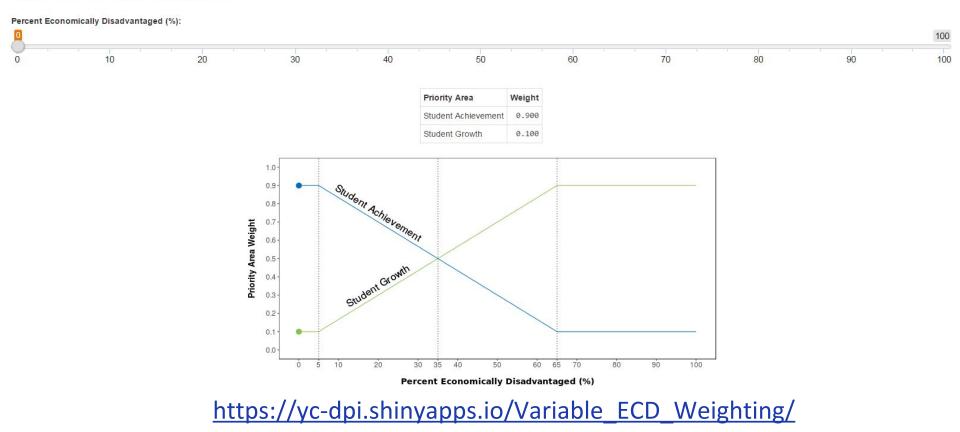

Change 2: Variable Weighting for Poverty

- Required Change
 - Apply variable weighting for student growth and student achievement priority areas based on proportion of economically disadvantaged students in the school or district
- Only when the school/district has 35% poverty are the achievement and growth priority areas equally weighted relative to one another

Achievement-Growth Weighting Calculator

Wisconsin Department of Public Instruction, Office of Educational Accountability

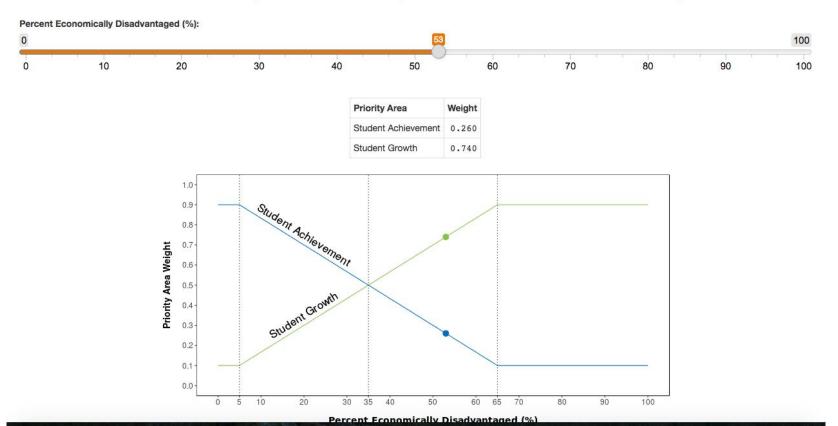

This app calculates the weights of the Student Achievement and Student Growth priority areas based on the percent of economically disadvantaged students. This calculation can be used in conjunction with the Accountability Report Cards Technical Guide (Step 1b of the Steps subsection of the Building the Overall Accountability Score section) to calculate the weighting used relative to Student Achievement and Student Growth. Weights are calculated under the assumption that both Student Achievement and Student Growth scores are present.

Achievement-Growth Weighting Calculator

Wisconsin Department of Public Instruction, Office of Educational Accountability

This app calculates the weights of the Student Achievement and Student Growth priority areas based on the percent of economically disadvantaged students. This calculation can be used in conjunction with the **Accountability Report Cards Technical Guide** (Step 1b of the Steps subsection of the Building the Overall Accountability Score section) to calculate the weighting used relative to Student Achievement and Student Growth. Weights are calculated under the assumption that both Student Achievement and Student Growth scores are present.

Change 3: Choice Report Cards

- Required Change
 - Issue report cards for schools participating in the choice program.
 - Private School choice students (aka choice pupil report card)
 - Private School all students (aka private school report card)
- Due to limited data, the choice report cards will not include ratings this year. They will include:
 - Demographic data
 - Proficiency rates (pg 1 graph)

Use caution when comparing the last report card to this one!

- Changes in report card scores may be due to changes in the calculations, the new weighting, or actual change in performance at the school.
- When reporting multiple years of data, updated methodology used in current report card, but not recalculated from prior years.
- As you look at the Priority Areas, consider...
 - How did you do compared to the State this year?
 - Two years ago (last Report Card)?

Secure report cards Monday, September 26

• Available in SAFE; embargoed until public release

Inquiry Process

- Inquiries were accepted through October 3rd
- Aim is to release updated secure Report Cards in the first week of Nov.

Public release expected Thursday, November 17

- Available on DPI website
- Embargoed summary data, press release will be sent to districts prior to the public release.
- Secure Report Card still cannot be shared publically
