

How to Navigate a J-Turn Intersection

Left and right turns from US 53 and right turns from WIS 77 can be made at the intersection. However, left turns and crossing movements from WIS 77 must be made at median U-turn crossovers located on US 53 about 900 feet in either direction from the intersection.

Crossing or Turning Left Onto US 53 at the WIS 77 J-turn:

1. Driving on WIS 77, stop as you reach US 53. Look left for a safe gap in traffic. Turn right from WIS 77 into the left lane of US 53.
2. As you reach the U-turn crossover, stop or yield as indicated. Look to your right for a safe gap in traffic.
3. If continuing on US 53, turn left on US 53 and enter the left lane. Increase your speed as you merge.
4. Look for a safe gap in the right lane of US 53, signal and change lanes.
5. If turning onto WIS 77, turn left, entering the right-turn lane. As you approach WIS 77, signal and turn onto WIS 77.

Some Rules to Remember

- Always look for safe gaps in US 53 traffic before entering or changing lanes.
- Always use your turn signal to indicate your intention.
- Watch for directional signs for US 53 and WI 77 to help you navigate.
