Invasive Buckthorn Education Event

The Washburn County Land Conservation Departments and the Yellow River Protection Conservancy are hosting a **FREE** public event to educate the public on Buckthorn identification and control methods.

Common and Glossy Buckthorn are found throughout Wisconsin and are destroying wildlife habitat and food sources and out-compete native plants that are needed for stable, healthy ecosystems.

WHAT TO EXPECT:

- * Education on the many problems it creates
- * How to identify it
- * Hands-on management training and control techniques
- * Training will be held outdoors on private property
- * Come prepared for the weather and to be in the woods

Date: Friday October 7, 2022

Time: 1:00 pm

W8080 Green Valley Road Spooner, WI

Please Register with Lisa Burns by October 4

715-468-4654
