## PK-6 Laker of the Week

Our PK-6 student of the week is Boden Marker, 6th grade. His parents are Jennifer and David Marker. Boden is a focused, bright, and driven student for all academics. However, his strongest classroom contribution is how he is an upstander, friend, and compassionate classmate for every single person in 6th grade. Boden treats others with understanding, empathy, and respect. Those classmates who need it most are uplifted by Boden's kind heart and compassionate character. ~Mrs. Burns

### Love and Logic

Many of our teachers have received training through the Love and Logic program (by Jim Fay). There is also parenting training with resources to help with difficult behaviors at home. Love and Logic is based upon these key principles:

1. Enhance self-concept - the confidence of being loved by the important people in their life, a sense of capability, and more emphasis on strengths than weaknesses
2. Share the control (provide children choices within your limits). Jim Fay suggests that instead of intimidating children into cooperating with adults, it's better to find ways to build up cooperation. Children want to have a sense of autonomy and need to know they have choices.
3. Consequences with Empathy - One of my favorite Love and Logic statements is "Oh that's a bummer." When children go outside of the limits, their consequences need to be a logical natural consequence but we can still empathize with them about their disappointment.

If you want to hear more about Love and Logic, check out their site: [Love and Logic](#).

## Change for a Change

Our Laker Family can make a difference in our community! Shell Lake Elementary students and staff are invited to bring in change to their classrooms and dress up each Friday!

## Northwood Technical College

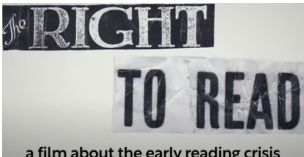

Summer Camps

[Little Engineer/Cool Creator Robotics program](#)

This program gives students the ability to create an out-of-this-world Lego robot! Develop science, technology, engineering, art, and math (STEAM) skills by building and programming a robot to work in outer space. This program offers an excellent opportunity to understand and practice teamwork while learning about the universe. **For grades 1-3 & grades 4-6.**

[Don Johnson Nito-X Automotive Camp](#)

This camp has students discover how vehicles work, build your confidence with technical skills, work in teams to develop life and employability skills, gain exposure to the industry, and show off your skills in an auto race. Work with an auto professional to personalize a car body using the same materials and techniques in the auto body and collision repair industry. **For grades 6-8.**

WI Reads is thrilled to partner with [L.E. Phillips Memorial Public Library](#) to host a screening of [The Right to Read Film](#) on Sunday, April 23 in Eau Claire! RSVP to save your seat today!
