RE: On Site Public Health Visit June 8, 2018

Dear Mr. Waltzing:

This letter is to provide you with follow up to the on site visit/inspection that occurred today, 06/08/2018, which included Health and Human Services staff, Zoning, and the County Administrator. On 06/01/2018, Burnett County Health and Human Services was made aware of concerns that sites on the Whitetail Wilderness Campground were discharging black water onto the ground. Due to the human health hazard, a placard was issued.

Based upon the observations and inspection that took place today, the human health concerns have been remedied and there was nothing observed today that would indicate ongoing concerns for human health hazard. Therefore, the placard is lifted by Health and Human Services effective today, 06/08/2018. As discussed previously, you are welcome to communicate this information with your campground tenants. Furthermore, the physical sign has been removed from the property by Health and Human Services staff today.

Please feel free to reach out to Health and Human Services if you have further questions or concerns regarding this matter or today's visits. I will be following up with you next week as discussed when we met today. You are welcome to contact either Interim Health Officer Sarah Miller at (715)349-7600, ext. 1952, or Health and Human Services Director Allison Fern at (715)349-7600, ext. 1231. Thank you for your time today and please do not hesitate to contact us with any questions or concerns.

Best regards,

Sarah Miller RD, CD, CLC
Burnett County Interim Health Officer
Burnett County Department of Health and Human Services
